

CHRISTINA IVELISSE MORRIS

ABOUT

Christina Ivelisse Morris is a new media, 3D, and installation artist from Chicago, Illinois. Christina uses color, lights, digital media, and occasionally sound to shift environments and create moody atmospheres. She earned her B.A. in Art Media and Design in 2015, but she is self-taught in 3D modeling. Christina challenges the boundaries of the norm, discovering new ways to transform her 3D creations into physical pieces that can be bought, worn, admired, and installed. Chicago is where she still resides.
